Every business is conducted to make money. No merhant sells goods at a loss, unless he has paid too much for hem, or hopes by selling some things at a loss to sell other roods at a large profit. A glance at any of the newspapers. of the day will show how far these shameful methods are reserted to. "Sweeping Reductions," "Selling Beow Cost," "Goods at \$1 per yard, worth \$1 50." What else do such things mean but fraud ! Such dealers simply haive on the credulity of the public. But happily there we other business methods in vogue. There are merthants who sell low by selling much. People who have ready cash, and are thus free to trade where they will. fild this out and deal with such merchants more and more. n time a great trade springs up as strong and enduring at 6 braiter itself, because broadly founded on the deep seated convictions of the public.

On the other hand, it has the power of protecting its our tomers by selling to every one at the same prices; by allowing credit to me one, and by putting the solling price in plain figures on every article.
